If you are looking for a career in environmental management and are interested in working in industry, consulting or with a regulatory agency like the EPA or ODEQ, consider the Professional Science Master’s (PSM) degree program at Oklahoma State University-Tulsa.

The first of its kind in Oklahoma, the PSM is an innovative interdisciplinary graduate degree designed to provide a springboard to industry-specific job opportunities.

The program simultaneously develops workplace skills with coursework in Regulatory Compliance with the US Environmental Protection Agency (EPA), Occupational Safety and Health Administration (OSHA) and Department of Transportation (DOT).

No graduate admissions exam (GRE, MAT) required.

COURSEWORK INCLUDES

- Clean Air Act
- Clean Water Act
- Sustainability
- HAZWOPER
- ISO 14001
- GIS Applications
- Hydrogeology
- Bioremediation
- Site Investigation
- Site Assessment & Remediation
- Environmental Chemistry

Students receive advanced training at the cutting-edge interfaces of environmental science technology with project management, team building and communication skills.

The PSM program includes a capstone project and internship to gain additional hands-on professional experience.

Classes meet one evening a week at our downtown Tulsa campus.
